

Executive Summary

This policy establishes information security requirements for all Neura AI employees, contractors, and third parties handling corporate or customer data. It aligns with SOC 2 Type II, ISO 27001, and GDPR obligations referenced in Operations/Compliance Framework.pdf. Violations may result in disciplinary action per Human_Resources/Employee Handbook.pdf.

Policy Statements

-
- All production systems must enforce multi-factor authentication (MFA)
 - Customer data must be encrypted at rest (AES-256) and in transit (TLS 1.3)
 - Access reviews conducted quarterly for all privileged accounts
 - Security incidents must be reported within 1 hour to security@neura.ai
 - Personal devices require MDM enrollment before accessing corporate resources
 - Password minimum length: 14 characters with complexity requirements

Data Classification Levels

Level	Examples	Handling Requirements	Approval for External Share
-----	-----	-----	-----
Public	Marketing materials, press releases	No restrictions	CMO approval
Internal	Org charts, internal memos	Employee access only	Manager approval
Confidential	Financial reports, customer contracts	Role-based access	VP approval
Restricted	PII, encryption keys, M&A data	Need-to-know, logged access	CISO + Legal

Example Scenario: Phishing Attempt Response

An employee receives a suspicious email impersonating Finance requesting wire transfer details. The employee reports via the Phish Alert button. Security Operations isolates the message, blocks the sender domain, and scans affected mailboxes within 30 minutes. Human_Resources sends company-wide awareness reminder. No credentials were compromised.

Approval Workflow

-
- Policy draft by CISO (Engineering_IT)
 - Legal and Compliance review (Operations)
 - CFO approval for financial data handling sections
 - CEO sign-off for Restricted classification procedures
 - Annual review by Audit Committee (Executive/Board Performance Report)

Cross-References

- Operations/Compliance Framework.pdf

Appendix 1: Supplementary Reference Material

This appendix provides additional context for Neura AI enterprise operations.

Governance and Review:

- Document reviewed quarterly by department leadership
- Next scheduled review: Q3 2026
- Compliance alignment verified against Operations/Compliance Framework.pdf

Related Metrics Snapshot:

- Total employees: 847
- FY2025 revenue: \$142.3M ARR
- FY2026 forecast: \$198.7M
- Customer count: 1240
- Platform NPS: 62

Department Coordination Notes:

- Engineering_IT: Technical implementation and security controls
- Finance: Budget allocation, expense approval, and financial reporting
- Human_Resources: Policy compliance, training, and employee communications
- Marketing: External communications and brand consistency
- Operations: Process governance, compliance, and vendor management
- Executive: Strategic alignment and board reporting

Document Control:

- Master copy maintained in corporate document management system
- Previous versions archived for 7 years per retention policy
- Unauthorized distribution of Confidential or Restricted documents is prohibited

For questions contact the Neura AI document owner listed on page 1.
