

Executive Summary

Neura AI's performance management framework ensures fair, consistent evaluation and development of all employees. Cycle: annual goal setting (January), mid-year check-in (July), year-end review (December). Calibration sessions ensure rating consistency across departments.

Performance Rating Scale

Rating	Label	Description	Compensation Impact
5	Exceptional	Consistently exceeds all expectations	150-200% target bonus
4	Exceeds	Regularly exceeds most expectations	125-150% target bonus
3	Meets	Consistently meets expectations	100% target bonus
2	Developing	Partially meets expectations	0-50% target bonus + PIP
1	Unsatisfactory	Does not meet expectations	PIP or separation

Example Scenario: Mid-Year Performance Check-In

Engineering IC receives mid-year feedback from manager. Goals: deliver Agent Studio MVP (70% complete), mentor 2 junior engineers (on track), improve test coverage to 85% (currently 78%). Manager documents feedback in Workday. Employee updates development plan with training goals.
